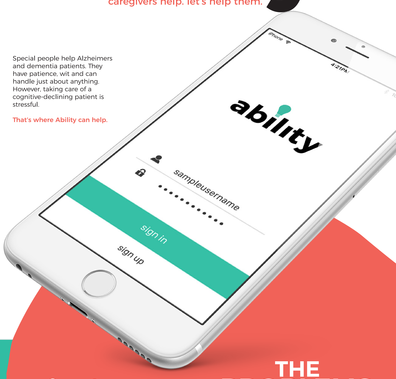
ability

caregivers help. let's help them.

Special people help Alzheimers and dementia patients. They have patience, wit and can handle just about anything. However, taking care of a cognitive-declining patient is stressful.

That's where Ability can help.



THE PROBLEMS

Sarah is the daughter of Joyce, and is monitoring her mother who generally is still well enough to be independent. **She needs occasional tools for monitoring her mother.**

Mary's problem in her workplace (a nursing home caregiver—is that there are often too many patients for her to handle. **She needs tools that assist with with facility caregiving challenges.**

THE SOLUTIONS

APPLIANCE HOME INTEGRATION
Ability provides an intuitive interface which works with selected smart home appliances. Sarah can now turn off her mothers stove, should it be left on.

HOME ACCESS TECHNOLOGY
Ability provides an intuitive interface which works with selected smart home appliances. Sarah can now turn off her mothers stove, should it be left on.

PATIENT PLANNER
Ability gives caregivers insight into a single patient's complicated facility schedule.

PATIENT LOCATOR
Ability has an on-site institution patient locator for lost or confused patients.

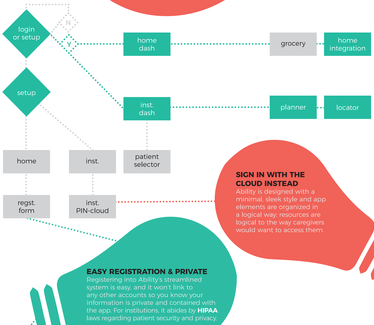
DESIGNED FOR CAREGIVERS

DESIGNED WITH SIMPLICITY FOR ACCESSIBILITY
Being a caregiver is a busy, complex job, so using Ability should be seamless to your everyday tasks.

READY FOR EMERGENCIES
Ability lets you take control when emergencies arise. On every app page, emergency resources are available to caregivers.

USER FLOW DIAGRAM

DESIGNED WITH YOU IN MIND
Ability is designed with a minimal, sleek style and app elements are organized in a logical way. resources are logical to the way caregivers would want to access them.



SIGN IN WITH THE CLOUD INSTEAD
Ability is designed with a minimal, sleek style and app elements are organized in a logical way. resources are logical to the way caregivers would want to access them.

EASY REGISTRATION & PRIVATE
Registering into Ability's streamlined system is easy, and it won't link to any other accounts so you know your information is private and contained with the app. For institutions, it abides by **HIPAA** laws regarding patient security and privacy.

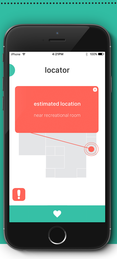
DESIGNED FOR HOME CAREGIVER ASSISTANCE

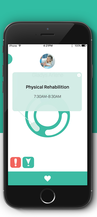
Ability's built-in **caregiver access** tools help caregivers when in-home patients get confused and lock them out.

Plus, since confused patients may have appliances on, so caregivers can shut off appliances remotely with built in home integration features.

DESIGNED FOR IN-FACILITY CAREGIVERS

With built in patient **activity trackers**, caregivers know what they're patients schedules are, and where they should be. And, if a patient becomes confused, caregivers can **locate** confused dementia/ Alzheimers patients within a facility area.





THE OFFICIAL ABILITY TRACKER
FIND CONFUSED PATIENTS & LOVED ONES
If you're a caregiver and a confused nursing home resident has wandered, Ability lets you easily locate the patient. Additionally, the tracker can be used in home settings. if a confused loved one has been lost.

NO SMART APPLIANCES? WE CAN STILL HELP.
If you don't have any smart appliances, we can still help. Ability offers tools you can use on ordinary appliances to help prevent accidents, like the Ability Stove Cap.

WE'RE STILL FINDING A CURE FOR ALZHEIMERS AND DEMENTIA.

WE SHOULD IMPROVE WHAT WE CAN CONTROL.

Every purchase of the Ability app contributes to the Alzheimer's Association, so that we can one day cure the disease. But, if we can't cure the disease today, let's make helping those in need even easier. You can help the fight against Alzheimers and dementia by purchase the Ability app and its accessories.

Caregivers help.
It's time to help them.
